Assessment

Our balanced, standards-based district assessment system will focus on student centered, formative and summative assessments that will provide usable teaching tools for the purpose of increasing student achievement.

Professional Development

Professional development will support staff members as they shift current practice to standards-based curriculum, instruction, and assessment. Professional development will guide teachers to create and implement their own formative assessments to emphasize instruction and feedback to students.

Curriculum

Curriculum will guide teachers with clear learning goals aligned to District-adopted standards that correlate to state and national standards. The curriculum will empower teachers to support all students in meeting district content and process standards.

Students will use feedback from assessments to identify individual strengths and weaknesses in order to set goals and monitor progress.
