Report Card Standards in progress.

PROGRESS SUMMARY

All curriculum work is in line with the District's Curriculum Improvement Sequence.

Report Card Standards are in progress but no report card decisions will occur until after more information is known about the Common Core.

Beginning in summer, 2010, a math teacher from Bozeman High School participated in a series of meetings held by the Montana Office of Public Instruction to analyze the proposed Common Core.

During the school year, all work associated with writing, science and math was related to the proposed Common Core.

Significant work will be planned over the next several years as the District fully aligns with Common Core.
