

LRSP Status Report – June 2011

1.13 CJMS Technology Proficiency SR 2011

Strategic Objective (SO):

- 1.13 All students, by graduation, demonstrate proficiency in technology as measured by the District technology assessment or successful completion of IT Essentials.

Department/School: Chief Joseph Middle School

Leader: CJMS Principal/Assistant Principal

Team Members:

Information Skills Teachers

In a year, we hope to see the following progress on this strategic objective:

Our 2010-11 goal is to have 100% of students performing at P+ level on the district technology assessment.

PROGRESS SUMMARY

1. Enrolled all sixth grade students in a six-week Information Skills class and assessed students at the end of each class using district technology assessment.
2. Enrolled any seventh or eighth grade student who was not proficient on district technology assessment, in an information skills class or technology class and reassessed their progress after the class.
3. All eighth grade students completed the state mandated technology assessment.
4. All teachers taught technology vocabulary within their curricular area. This strategic objective will continue in the 2011-12 school year.
5. All teacher incorporated technology into their academic units. The computer labs were used almost 100% of the time. Next year, sixth grade will have a complete computer lab in the sixth grade classroom wing. Seventh and eighth grade will share one full lab and a third lab will not be a full lab, but will have 15 computers set up in the lab.
6. Technology teacher and Information Skills teachers met as a group to review the technology standards and adjusted the curriculum guides for all technology and info skills classes.
7. All incoming sixth grade students fall 2011 will be expected to keyboard 30 words a minute by the time they leave middle school spring of 2014. This expectation was shared with all incoming sixth grade parents at the spring registration meeting.
