

LRSP Status Report – June 2011

3.01 Supt Web Updates SR 2011

Strategic Objective (SO):

3.01 Implement timely updates to our District Website for effective, accurate, timely communication

Department/School: Superintendent

Leader: Kirk Miller

Team Members:

Steve Johnson, Christine Day and the Technology Team, Nancy Brady

In a year, we hope to see the following progress on this strategic objective:

School team and community increase utilization of the BSD7 Webpage for gaining complete, accurate, timely information about our schools.

PROGRESS SUMMARY

LRSP elements including Action Plans, Balanced Scorecard, and Status Reports were created to be web accessible for the ease of use by constituents. Clickable access to all district LRSP information provides transparency and accountability.

District Policies are revised and immediately placed on the webpage following each school Board meeting. This is the main form of access (allowing key word search) and hard copies of policy have been minimized to save paper.

School district programs and initiatives were highlighted and progress was kept up-to-date on the web. Refreshed the home page look throughout the year to highlight important issues under 'Latest news' and 'District News' headings. Examples include school election information, progress on the LRSP, results of the Balanced Scorecard feedback surveys, school election communications and plan and results, and continued monitoring and updating of the community connections bulletin board for community, staff and students.

School district budget, legislative and election issues are outlined along with frequently asked questions (FAQ) and updated regularly on the website.

This team has worked diligently to use the website to provide community, staff, students and the world with concise, timely information that is easy to access. This assists in communicating transparency and accountability of our system to the public.
