

# Premium Calculation

Used for all employee's that are less than 1.0 FTE

District's Premium Contribution x FTE = New District Contribution

**THEN**

Total Premium – New District Contribution = Employee's Monthly Premium

---

## EXAMPLE

Employee is .875 FTE

District's Contribution for 1.0 FTE = \$498.00

Total Monthly Premium Cost = \$650.00

**\$498.00 x .875 FTE = \$435.75 (District's New Contribution)**

**\$650.00 - \$435.75 = \$214.25 (Employee's New Contribution Amount)**
